RED FLAGS DESTROYED

Socialist Demonstration in New York
Results in Many Injuries.
New York, Nov. 13.—Many New
Yorkers with bolshevik tendencies are
nursing injuries today as a result of
a battle on Fifth avenue last night
with United States soldiers and sali-

Ors.

Between four and five thousand socialists started from the East Side for a meeting at Carnegic Hill. They carried hundreds of red flags with a few American flags systemed here

and there.

As they entered Fifth avenue at Twenty-third street, some of them shouted: "Down with militarism. Down with soldiery:"
Several soldiers from the sidewalk replied: "Down with those red flags! There's only one flag to be carried in this country now." There's only one flag to be carried in this country now."

Then the riot started. The soldiers seized and destroyed every red flag they could get their hands on. They were attacked by men and women marchers. Sailors rushed to the battle and uniformed men appeared from all directions. Hundreds of riot calls were sent in and police reserves were rushed to the scene. By the time the struggling paraders reached Carnegie Hall, there was not a red flag left. Many marchers were injured.

SCOPE OF PROBE

Investigation of Political Activities of Brewers to Be Decided Upon.

Washington, Nov. 12.—The scope of the investigation of the political activities of brewers, including loans to Arthur Brisbane for the purchase of the Washington Times and of pro-German propaganda was to be determined today at a meeting of the senate judiciary subcommittee. Suggestions that the investigation be limited and that the inquiry into pro-German propaganda be dispensed with have been made to members of the subcommittee since the signing of the armistice.

Gen. Crowder Rules That Registrants Must Hand in Their Papers.

Washington, Nov. 13—Registrants between the ages of 37 and 45 who have received questionnaires must return them to their local boards unexecuted. Provost Marshal-General Crowder ruled today. It already had been ruled that the questionnaires already sent to men of these ages need not be filled out, but the order that they must be returned was not issued until today.

It has previously been reported that Ballin had died of apoplexy. He was one of the best known shipping men in the world.

THANKS SERVICE

AT COURTHOUSE PEOPLE GATHER TO OFFER PRAYER AND PRAISE.

Praise God From Whom All Blessings Flow," Sung Fervently by Hundreds.

The first movement towards a pub-lic prayer and praise service, with thanksgiving, since the signing of the armistice with Germany was held on the courthouse lawn Tuesday from 12 to 12:30. Dr. J. W. Bachman, of 12 to 12:30. Dr. J. W. Bachman, of the First Presbyterian church, issued a call for the service. All of, the chairs provided for assemblies on the lawn were filled and many were compelled to stand. It was estimated that 1,900 people were there. The purpose of the gathering was announced by Dr. Bachman, who said that as the oldest minister in the city he had taken the privilege of calling the people together to offer prayer and praise for the victory of America and the allied armies and for the coming of peace.

But, ohi we know that they forth with thee

to Replenish Nerve Wastage. A Great Aid to Longevity and Youthful Tendencies.

Some people never seem to grow old. At the age when others are feeble, alling, incapacitated for work or pleasure, they seem to retain the freshness of early life so completely or nearly so that they are only the more charming in spite of advanced years.

There exists no real explanation for feebleness of age. Science furnishes no direct and positive answer, but there is a strong probability that when the truth is discovered it will be found that nerve weakness and exhaustion (frequently due to early strain and excesses) are the underlying causes. In other words, if the nerve forces had been kept normal, we would not see so many old people and old young people suffering from lack of energy, languidness, sleeple-sness, excessive thinness, irritability, faulty memory, nervous debility, gloomy foreboding, lack of concentrative ability, or the usual rundown condition of the system.

But if science is somewhat lacking in its knowledge of causes, there is no lack of knowledge as to what to apply as a remedy for these unnecessary old age conditions which are all too common. Since the important discovery made by the French scientist, Pelouz, that a certain type of phosphate (known among druggists as Bitro-Phosphate) is nearly identical with the phosphorus naturally contained in the nerve cells of the human body there has been no reason why so many need suffer as they do now from depleted nerve force and the accompanying complications. It is only necessary to supply to the bodies of young or old a sufficient quantity of nerve food to keep the cells 'young, the cheeks glowing with health, the flesh firm and full and the muscles supple and active.

Dr. Frederick Kolle, Editor of New York Physicians "Who's Who," says: "Bitro-Phosphate is not a patent medicine and should not be confused with such. It is not a mixture of a variety of ingredients of more or less doubtful value, but instead it is a plain, simple preparation containing the identical ingredient in full five-grain doses of the wonderful phosphate that it has fail
